An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alike Patel on March 31, 2006.

The application has been amended as follows:

In the specification on page 1 after the Title, the continuing data has been amended to read

----This application is a Divisional of Serial No 09/995,968 filed 11/28/01 now US patent 6,649,029.-----

:

In claim 15 line 3, "dyes" has been changed to ---dyed---

In claim 21, "100 mbar to about 1 bar" has been deleted and replaced with ---0.01 to about 10 mbar"

In claim 30 on line 3 "and" has been deleted and replaced with ---to---

The following is an examiner's statement of reasons for allowance:

Applicant's amendments and remarks have overcome the rejection of claim 13 over Hendricks. Claim 13 and newly added claim 14 claim products which are not disclosed or suggested by Hendricks. The plasma treatment of the wool before treating with the aqueous dispersion of polyurethane results in the removal of water and the

formation of reactive species on the wool as claimed in claim 13 and also in the formation of high energy electrons, ions and high energy neutral molecules and radicals on the surface on the wool fibers prior to the pretreatment with the cationic polyurethane as claimed in claim 14. The process of Hendricks does not suggest the formation of reactive species on the wool prior to treatment with the polyurethane as now claimed. See also Merten et al., 6,103,068 which teaches the effects of treating wool with plasma. Tables 1 and 2 in the specification show the differences in the wool which has been treated with plasma and wool which has not.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
